PART A – GAC CORPORATE PROFILE

About Grande Afrique Consulting

Grande Afrique Consulting (GAC) is a Management Consulting firm incorporated in 2012, headquartered in Kenya and devotedly delivering value on assignments in the whole of Africa.

GAC has its main office located on Eden Road 19- Thome, off Thika Superhighway Exit 7. At GAC, we provide Audit Management Solutions and offer financial, economic, and business strategy consulting to capture our client's unique needs.

Over the last 13 years (Since 2012), GAC has established a very successful Management Consulting Services Practice with its headquarters in Nairobi, Kenya. GAC has empowered professionals all over Africa with skills and tools to automate their Internal Audit, Enterprise Risk Management, Compliance, Business Intelligence, and Fraud Management functions leveraging the power of Modern Technology and Data Analytics.

At GAC, we are not constrained by conventional wisdom, and we ensure that we tackle varied and unique client challenges, create customized solutions, and drive tangible results. We are keen to leave a lasting impact on our clients' organizations, and we are committed to ensuring that they continue to enjoy leading-edge results.

GAC Vision

To be the premier provider of top-of-the-range business solutions through Management Consultancy, IT Consultancy, and Development Consultancy services in Africa and other select markets.

GAC Mission

To fill the management, IT, and development consultancy gap in Africa through superior customer service, innovation, and commitment, all offered in line with international best practices, regulatory requirements, and solutions customized to our client's own unique needs.

GAC Consultants

Our team comprises extensively trained consultants who have amassed experience from high-level management positions in the local and international context. GAC consultants have provided astute guidance to clients in many successful engagements.

We owe this success to our large pool of well trained and experienced consultants and a vibrant market that is increasingly embracing information technology and its benefits and continuously demanding more meaningful insights from their simple to extremely large and complex businesses, infrastructure and regulation.
